

Dunholme Camera Club

It really is amazing that we are in September already. I must admit that the camera hasn't had as much use as it does most years but as the year goes on I and the members of the camera club are beginning to get out a bit more and make memories.

If you are interested in photography and want to see some great images from our members then go to our website www.dunholmecameraclub.co.uk and take a look at some of the 40,000 images we have there.

If you like them, are interested in photography and would like to take better pictures, join us one Thursday evening on YouTube when we have our virtual meeting. Meetings start at 7pm. All you have to do is look up Dunholme Camera Club on YouTube and join us on the night. Our live sessions are made up of talks, demonstrations, competitions, etc. When you are watching just drop a line in the chat to let us know you are there.

At the moment, we aren't holding any meetings in the club room at the Old School due to the current situation, but that doesn't stop members joining in with what we have going on each month. In fact our membership has gone up by five since lockdown because people can join in virtually through the YouTube meetings.

These are very unusual times and the pictures you take will be the memories for the future. Please, please make sure that you take care of those pictures, especially those taken on your phone. Yes, phones are a good medium for taking and keeping images but so many people forget to put the pictures onto a hard drive so that they are safe for others to see in the future.

If you want to know more about photography head over to the club's YouTube channel and check out some of the videos to get some ideas and tips; and if you want to join the club, just get in touch.
