

Printed Magazines

Thank you to everyone who responded to our survey asking whether you want to receive a printed copy of the Welton **NEWS** or if you prefer to read the online version. We received a huge number of responses and the overwhelming majority of those who replied told us that they prefer a printed magazine.

Not every household responded, and we did not expect this, so we will deliver printed magazines to everyone except those who replied to say that they would prefer to read the online version. If you receive a printed magazine and you really would prefer the online version, send an e-mail to me at weltonnews@gmail.com with your address and we will remove your address from the list of those receiving printed copies.

Because some people have enjoyed the online version over the last four months, we will continue to produce an online version that is slightly different to the printed version. This version will have more photographs and more colour than the printed version. I'm sure some readers will enjoy both versions of the magazine.

Thank you for your loyalty to the **NEWS** and our advertiser and for the many nice comments we have received as a result of the survey.
