

Matt's Fund

We could almost say it was a return to normality as the annual golf day took place at Market Rasen Golf Club, with 34 teams of 136 players from around the county turning out through the day to play 18 holes over this lovely heathland course. First team went out at 8.30am with the last team on the tee at 1.30pm; all teams managed to complete the game in the dry!

We and the staff at MRGC worked hard to follow current regulations to make the day 'Covid secure' and, hopefully, all the players considered we'd achieved that goal.

Our usual team were kept busy through the day with Peter Bray carrying out the starter duties in

his inimitable way, Di with Ethel, Mike and Breege ran a well-stocked halfway house offering refreshments to all players, Glynis ran the prize draw and cajoled cash out of anyone who passed through the clubhouse and Charlie and Guy did a superb job as 'gofers'. Without them this day wouldn't happen, so our thanks to them all for selflessly giving up their day to help.

Winners, with 96 points, were 'Newtec' but local team 'Welton SSC' put in a great effort, matching them on points but losing on countback over the last nine holes. Thanks to all the Welton and Dunholme golfers who played on the day.

We raised a total of £2,840, a fantastic amount under the current circumstances, which will be donated to raise awareness of melanoma, via Melanoma Fund and Skcin, and to Professor Patel's research into melanoma and skin cancer at Nottingham University Hospital's Cancer Research Unit.
