

RAISING MONEY FOR PROSTATE CANCER RESEARCH

A two-day cycle ride to Tattershall Castle and back has resulted in over £800 for prostate cancer research.

Annette Goodeve, who has run the crafts class at the village hall for many years, did the 60-mile ride on the 10th-11th August, staying overnight in Woodhall Spa. Annette said she met eight RAF men from RAF Scampton who were walking with heavy packs to Coningsby and even though she was tired it made her appreciate being on her bike. She also plays walking football and her funds were boosted by a donation of £200 from the Welton Imp club. Annette would like to thank all of those who sponsored her.
