

WELTON VILLAGE HALL TRUST

The slow trickle of activities returning to the hall has turned, if not to a river, then at least to a decent-sized beck. As well as organised groups, it's great to see family celebrations, some of which have been much-postponed but can now go ahead. We hope everyone has a day to remember.

At the same time, we need to continue to be careful, so it's good to be able to report that West Lindsey District Council is providing a supply of lateral flow testing kits for anyone who needs them to use. These will be in the entrance hall and anyone can pick up what they need. This is not just for users of the hall; if it's open then feel free to pop in and take a pack. The most likely time for the hall to be open is Wednesday between 9.30am and 11.30am or 4pm and 6pm.
